List introduction:

The various Raeburn tariffs:

The Agency Tariff is our core offering. The 20% longer Main Tariff includes everything that we ship. Our Burgundy 'E.P.' offer comes out in January each year. Please, do ask for the ones that best suit your needs.

Raeburn tariff in numbers:

~3300 lines listed, 1800 French, 1100 Burgs, 600 lines over 10yrs, 570 Italians, 410 large format, 400 Austrians & Germans, 270 Rhones, 230 sweet wines, 200 New World, 200 Iberian, 150 halves, 85 sparkling wines, 80 spirits, 15 junmai sake. Etc.etc.

Provenance, maturing stocks & old exchange rates:

One of our roles is that of traditional stockholder. We have large, impeccably stored stocks, much bought at old cost prices and exchange rates. We can therefore pass on some amazing values &/or margin potential to you. ~99% of our wines are shipped from the producer, and cannot be fakes.

Environmental footprint:

Of the ~220 producers we ship from (excluding Bordeaux GCCs), over 55% farm according to **organic** &/or **biodynamic** principles, (50% with certification, 50% without.) A further 37% are in **sustainable** agriculture as a minimum; 3% are a mixture.

🌱 Vegan compatible:

We listed our known **🌱Vegan compatible** wineries in 2017, after requests. Over 55% comply. [FYI most wine is vegetarian]

Product information:

We've an ever growing collection of information sheets & press cuttings: do ask. Plus some growers have splendid websites.

Two warehouses:

We bond in LCB's London-Tilbury facility. In Edinburgh we have The Vaults, thought to be the oldest working cellars in Britain, from the 12th Century. Many items are in both places. If an item is ONLY lying in The Vaults, it is usually marked (VAULTS) on the list. NB orders combining wine from both places count as two minimum orders, two deliveries. We always try to facilitate.

Raeburn Fine Wines:

We remain wine-people importing wines we consider to be worth selling, drinking and thinking about, for you, our wine conscious clients. Zubair (and David) spend three+ months of the year buying, which is only possible with Taher, Humair, John & Co. patiently running things. For which, thanks.

SAINTS INVOKED IN WINE & GASTRONOMY

A note on agricultural nomenclature:

The Raeburn Fine Wines tariff outlines most producers' general approach to agriculture. Producers working in various schools of reduced treatments are described as **SUSTAINABLE** agriculture. (Quite some are formally certified sustainable.) Producers certified as **ORGANIC**, or **BIODYNAMIC**, are described as such. Those who are compliant with certification bodies' guidelines, but are not certified, are described in inverted commas as 'organic-uncertified' or 'biodynamic-uncertified.' The reason for listing this is to communicate between wine professionals, in plain English. Please, be aware that uncertified wines *cannot* legally be described as organic or biodynamic to the public... As always in wine, trust in producers' qualitative and ethical ideas and actions, counts for more than scores and awards, classifications and certifications combined. NB The precise current farming status of any producer can be checked, upon request. (London, Autumn 2017)

B+D Guide 2010 'Un des hauts lieux mondiaux de la production de vins liquoreux'

B+D Guide 2009 'générosité de caractere hors norme et d'une perfection d'élaboration digne d'Yquem.'

R.Parker, TWA 1997 'I have applauded recent efforts of this estate, which goes to unprecedented lengths as well as labor to produce the most amazing sweet wines I have ever tasted. ... That being said, there is no doubt in my mind that the 1995 Cuvee Madame is as profound a sweet wine as I have ever tasted. ... As is the case with so many of the world's greatest wines, the production is insignificant.'

R.Parker, TWA 1996 'with microscopic vinifications such as this, it is easier to achieve near perfection. ... It is an understatement to say these are the greatest wines I have ever tasted from Monbazillac; in fact, they are among the greatest sweet wines I have tasted ... from anywhere!'

S.Ohman, Winehog 2017 'To be honest I quite adore the wines of Domaine Arlaud...lightfooted, airy and organic with a forward & floral fruit'

N.Martin, 2017 'I was really impressed by Arlaud's wines... Cyprien has sagaciously reduced the percentage of new oak...'

My feeling is that Arlaud is entering a new chapter, a higher level of excellence that is going to be interesting to watch unfold.

N.Martin, 2014 'I finally reached Domaine Arlaud Pere & Fils for the first time in late January. But good things come to those that wait.'

N.Martin, 2017 'When Remy's wines hit the spot they are an absolute joy to behold.'

N.Martin, 2015 'just beautiful, in some ways reminding of the freshness and transparency of Nicole Lamarche...These are not powerful, gutsy wines despite their prestigious origins, but are based on purity and poise, wines that can be deceptively long-lived.'

N.Martin, 2015 'worth seeking out, especially for those that like traditional, unpretentious and pure Pinot Noir.'

Claude Kolm: 'making excellent wines in a very traditional fashion'

Bill Nanson, 2013: 'the wines of Remy...more often than not, fit my prescription for a perfect bottle.

Elegance and complexity, with quite enough understated power, thank-you. Just very lovely wines.'

CLIVE COATES MW:

'the best'

**

'a fine domaine'

*

'a very good domaine'

the notation on producers signals:

Exceptional producers, those which represent the absolute summit of quality in France and in the world.

Producers of very high quality, those which are the glories of the French vineyard estate.

A production of high quality, able to serve as a reference in it's sector

A serious, recommendable production, but with more regularity

A serious, recommendable production, conforming to what one has the right to expect from the appellation(s).

starred domaines:

These represent the excellence of the french vineyard. The best terroirs exploited by the greatest vigneron. To taste their wine is always a magic moment.

These very great domaines, often possessing fabulous terroirs, are the key players who, by the consistency and excellence of their production, should figure in the cellar of well-informed amateurs

Stars of the future, or vigneron of a good level of quality, you will not be deceived whilst tasting wines of these domaines.

from The Wines of Burgundy, 2008:

A domaine which will not only have significant holdings in grand cru vineyards, but which will consistently make very high quality wines from them. Naturally they will ask high prices. These domaines are rare.

Again, it will have fine vineyard holdings. High results can be expected and will be priced accordingly.

The customer can safely buy wines with confidence here.
